Background

Established since 1959, Chee Wah Corporation Berhad ("Chee Wah") has grown from a partnership to a status of a public company listed on Bursa Malaysia Securities Berhad (then known as Kuala Lumpur Stock Exchange) on 1 September 1994.

Following the completion of share exchange exercise on 30 June 2017, Chee Wah becomes a wholly-owned subsidiary of CWG Holdings Berhad ("CWG") upon CWG's assumption of the equity ownership of Chee Wah. CWG had subsequently on 13 July 2017, made its trading debut on the Main Market of Bursa Malaysia Securities Berhad with the assumption of listing status by CWG from Chee Wah.

The aforesaid re-organisation has facilitated the establishment of a corporate structure whereby CWG, as a holding company, owning 100% of Chee Wah. This is another major milestone for Chee Wah since its humble inception for 60 years ago.

Over the last 60 years, the Group has grown its business from trading in the early years to a fully integrated manufacturer. The Group has invested extensively in automated production systems with the capacity, flexibility, and expediency to serve our discerning customers. From the initial production of exercise books, Chee Wah Group has expanded its product range to a diverse array of stationery and art items that include spiral note books, pads, artist pads, hard cover books, files, paper bags, gift wraps, and the publishing of children's books.

Chee Wah headquartered in Penang, a state in northern Peninsular Malaysia, we operate in a stable socio-economic environment. With good and effective infrastructure and public amenities, Malaysia is now a premier location for foreign direct investments in the South East Asian region. We have certainly benefited from this business friendly environment.

Currently, we export our products to many countries around the world. We offer a comprehensive array of attractive, innovative and yet functional stationery products to consumers in more than 50 countries under Original Brand Manufacturing (OBM), exclusive Original Equipment Manufacturing (OEM) and Original Design Manufacturing (ODM) arrangements.

At the domestic front, Chee Wah's business has seen the distribution of our products from wholesalers to retailers. Our local customers include prominent hypermarket chains, bookstores, speciality stores and supermarkets.

Strategic Investments

Investments in production equipment such as advanced offset printing machines that use highly automated technology enable the simplification of printing processes. This leads to shorter delivery time with maximum quality and flexible job handling, which optimises resources utilisation. The Casemaker machines allow customisation to meet user requirements in producing a wide range of book case products. The multipurpose Binder is a sophisticated automatic on-line Binder that features cold glue, hot melt, and PUR together with HF drying facilities for the manufacture of book blocks, among others. Its unique configuration allows auto interface with trimming and stacking systems thereby producing finished products at end of line.

The Automated Storage and Retrieval System (ASRS) at our warehouse allows efficient space utilisation and effective storage control. With ASRS, we are also able to offer value added service to our customers by providing storage for their products if so required. With customers veering towards shorter lead times and on-time deliveries, we are confident that our investments will enable us to meet their demands.

Total Customer Satisfaction

Over the years, we have built on our customers' trusts with our Seal of Quality - the Camel Paper Products logo that adorns our every product. This is evident when our Camel Paper Products brand was conferred the Superbrands Malaysia 2003/2004 awarded in 2003 and for CAMPAP in 2005. Today, CAMPAP (abbreviation of Camel Paper Products) with its contemporary designs appeals to consumers in schools, universities, offices and home categories. With growing brand recognition, CAMPAP has expanded its product range to embody a wide array of stationery items for daily usage.

In addition, we offer ODM arrangement by proposing exclusive designs for discerning clients. This value added service has been well received by our customers. Another service is the made-to-order OEM arrangement with products following specifications and designs provided by customers under their own brands.

Some examples of our successful partnerships are collaboration with Disney to develop distinctive designs for products under their brands - Disney Standard Characters including Disney Princess, Mickey Mouse, Minnie Mouse, Donald Duck and friends.

The availability of an efficient and effective logistics system facilitates the transportation of our products to distribution outposts locally and around the world within the required deadlines.

On a high note, we are greatly honoured to announce that Chee Wah has been awarded a very prestigious award, the BrandLaureate BestBrands Award 2018-2019 by the Asia Pacific Brands Foundation ("APBF") on 27 June 2019. APBF is a branding foundation to recognize brand excellence amongst brands in Malaysia and the region. Our  has been recognized as brand leadership in consumer stationery. Winning this award marks a great achievement for the Company. It is a testament to our brand success.

On top of that, Chee Wah had on 18 November 2019, received Most Promising Award at the Gala Night of Export Excellence Award 2019 ("EEA"). EEA is organised by Star Media Group Berhad, in partnership with Standard Chartered Bank Malaysia Berhad, to recognise and show appreciation to Malaysia's exporters.

Winning these awards entrusted us with a responsibility of raising high quality of our product and continuously building our brand recognition locally and internationally in global markets. We will continue to strive for excellence and forge on with greater spirit and effort for meeting customers' expectation.

Markets And Strategies

We continue to expand to non-traditional markets while strengthening our presence in the Europe, Oceania, America, Middle East & Asia regions. Our commitment to the international market is affirmed through regular participation at international trade fairs and exhibitions such as Creativeworld Frankfurt (Germany), Paperworld Middle East (Dubai), ISOT (Japan) and others.

Quality

Quality sets us apart. Our commitment to quality is the key to us being the first in our industry to obtain ISO 9002 quality certification in 1996. Today, we have upgraded to the ISO 9001: 2015 edition quality certification and continue to improve our high standard of quality management system. It reaffirms our commitment that quality will always be an essential component in achieving total customer satisfaction.

In July 2010, the management system of Chee Wah had been assessed and certified by SGS South Africa (Pty) Ltd under its QUALIFOR programme, a forest certification programme which is accredited by the Forest Stewardship Council® (FSC®), for meeting the requirements of FSC Chain-of-Custody. Chee Wah had on 2 July 2015 received recertification with a Certificate No. TT-COC-005381.

Going Forward

Our combined strengths of people, strategic alliances and resources enable us to deliver effective solutions to meet all your stationery needs and requirements. With our over 60 years of experience in this industry, we are confident of overcoming present and future challenges in our quest to achieve greater success in our business activities. Together we shall grow from strength to strength.

MURILLO™

This fine cardboard paper is produced with 100% ECF cellulose, according to ISO 9706 LONG LIFE regulation. It is Acid Free to guarantee long permanence in time. The particular grain of the surface and the highly lightfast colours are the principal characteristics of this Acid Free paper, which is ideal for deluxe editions, art prints, brochures, calendars, passe-partout, drawing, etc.

MURILLO™

This fine cardboard paper is produced with 100% ECF cellulose, according to ISO 9706 LONG LIFE regulation. It is Acid Free to guarantee long permanence in time. The particular grain of the surface and the highly lightfast colours are the principal characteristics of this Acid Free paper, which is ideal for deluxe editions, art prints, brochures, calendars, passe-partout, drawing, etc.

TIZIANO™

This paper is produced with a high cotton content and pure ECF cellulose, according to ISO 9706 "LONG LIFE" regulations. It is acid free to guarantee long permanence in time. It has highly lightfast colours, an excellent surface marking and sizing which make this paper particularly suitable for pastels, pencil, graphite, charcoal, tempera, air brush and watercolour techniques. Tiziano can also be used for art prints, and in silkscreen printing and lithography.

TIZIANOTM

This paper is produced with a high cotton content and pure ECF cellulose, according to ISO 9706 "LONG LIFE" regulations. It is acid free to guarantee long permanence in time. It has highly lightfast colours, an excellent surface marking and sizing which make this paper particularly suitable for pastels, pencil, graphite, charcoal, tempera, air brush and watercolour techniques. Tiziano can also be used for art prints, and in silkscreen printing and lithography.
