ACTIVITY BOOKS

This series of Dot to Dot Books, which comprises specially drawn dots with numbers in sequence, is a gentle approach to drawing of animals and objects. Joining dots to form pictures is a creative way of teaching young children to draw. Besides having fun, children learn to cultivate educational skills such as drawing, colouring and numbering.

Teaching children time can be challenging and sometimes tricky. In this series, your child will learn the basic fundamentals of time. This allows them to have a basic understanding of the concept of day, week, months and dates. Above all, it teaches them how to tell time! The exercises in this series are designed with poem, handicraft, and activities which make learning time easy and fun.

ACTIVITY BOOKS

Future Ace learning activity series is a simple and fun way for children to learn. Children will be exposed to alphabets, colours, and numbers. These activity books seek to develop children’s motor-writing skills as well as thinking skills. It’s fun because each alphabet or number is associated with an activity. Learning becomes meaningful with association of words and activities which enable children to recall what they have learned easily. Both, children and parents will love it!

DOT TO DOT PICTURE ART BLOCKS

These Dot to Dot Picture Art Blocks comprise specially drawn dots with numbers or alphabets in sequence to help young learners to draw animals. Joining dots to form pictures is an ingenious way of teaching young children to draw. Besides drawing, children also have the opportunity to practise colouring and numbering.

IQ & Counting Pads

The Future Ace's IQ Activity Pad series is specially designed for children to stimulate their consciousness and deliberate learning to search for answers, rather than merely gathering innate information. The various strokes, dots, lines and curves are gradually introduced to children to enable them to acquire disciplinary writing skills. The activities also develop hand skills, strengthen fingers, wrist and arms skills, and all the small muscle movements that occur in their fingers are in co-ordination with their eyes which stimulate brain activities. The 48-page IQ Activity Pad will do wonders for the children when they work on them.
