Future Ace learning activity series is a simple and fun way for children to learn. Children will be exposed to alphabets, colours, and numbers. These activity books seek to develop children's motor-writing skills as well as thinking skills. It's fun because each alphabet or number is associated with an activity. Learning becomes meaningful with association of words and activities which enable children to recall what they have learned easily. Both, children and parents will love it!

'My World In English' provides ample opportunity for preschoolers to cultivate their basic language skills through the practice of the various activities set out in the book. The activities are graded according to themes which are familiar to small children who will feel comfortable in dealing with them. Equipped with such basic skills, children will be more prepared for any formal education in the future.
